CRL: Save Time With Repair Addendums Made From The Inspection Report

We know you dread copying and pasting all those items to create your repair addendum. It's a mess. Now with our **Create Request List** (CRL) feature, you can create a list easily and attach it to your regular repair addendum form right from your inspection report.

Try it: HomeGauge.com/CRL

Easily add items to your list

No more copying and pasting — you can save precious time by using the inspection report!

Add your own custom items

Need a request that's not a part of the report? No problem! Add as many items as you like.

Collaborate with your buyer

You and your buyer can both work on the same list and see who requested what!

Email or save the results

It's easy to share the results or to attach them to your addendum! Email it or download it right away.

Use a home inspector that uses HomeGauge and get this feature free with each inspection!

Attach business card here

After the inspection you can click on the "Create Request List" link below the inspection report.
